COOKIE POLICY

Use of cookies on the www.tedxdunapart.com webpage

[name of webpage operator] uses cookies on the www.tedxdunapart.com webpage operated by it. We provide you information on the cookies used by us, their purpose, as well as the conditions of their use via this cookie policy.

What is a cookie?

The cookie is the information package specified by the service provider that the server sends to the browser and then the browser re-sends to the server at each request. Browsers usually store cookies in plain text file (s), so each cookie will be available after turning off and restarting the browser.

Types of cookies used on the webpage

We use cookies on the www.tedxdunapart.com webpage. The cookies used on the webpage fall into the following categories:

1. Absolutely necessary (session) cookies

These cookies are required for browsing our website, using its basic features and storing the actions performed on the website. They are always valid only during the visit and are automatically deleted from the computer after the session ends or the browser is closed.

2. Cookies needed to measure performance

We analyze our website with Google Analytics cookies to develop and improve it according to our visitor habits. It is important that these cookies cannot and do not want to specifically identify visitors. For more information, see the links below:

https://policies.google.com/technologies/types?hl=hu
https://policies.google.com/privacy?hl=hu&gl=hu

What are third party cookies?

There are no third-party cookie placements by links or icons of other websites, such as Facebook, Instagram, Google Adwords, except the above Google Analytics cookies. The website and its operator are not responsible for the content, operation of third-party sites and do not control the sites of third parties.

How to notify visitors and how to require consent to the use of cookies (if relevant)?

When you first visit the Service Provider's website, at the bottom of the screen, an information (banner) is provided, which

states that the website uses cookies that you can find here (recommended cookies) and a link is also provided to this policy. You are
entitled to accept or refuse the cookie settings recommended by the website and to request only the application of absolutely necessary (session) cookies. You may also
modify the cookie settings later. Refusing to manage cookies needed to measure performance has no effect on you, and does not
affect the content or features you see on the website.

How to check / delete / remove cookies?

In order for websites to function properly and user-friendly, most browsers automatically accept certain cookies. The visitor may manually accept the recommended cookie settings at the first visit on the website in a message or modify them. In the case of cookies based on the consent of the data subject (you), the setting of the use of these cookies or the acceptance (authorization) of the recommended cookie settings is deemed to constitute the consent to the relevant data processing. You can delete this consent at any time in your browser settings menu, which is considered as a withdrawal of the relevant consent for data processing. Changing the settings for such cookies later (for example, by setting the cookies that are absolutely necessary only) is also a withdrawal of the relevant consent for data processing.

You can read about the cookies settings of the most popular browsers at the links below:
